(Associated Press Telegram)
Warsaw, Nov. 29.—Via London. Hundreds of thousands of the civil population in Warsaw district of Poland are suffering for want of food. A considerable percentage of this number still are homeless, living in huts, caves, and abandoned trenches.

The situation is more serious because of the immense number of persons thrown out of work by the almost complete paralysis of Polish industries. Some workers have emigrated to Germany where employment is plentiful, but the great majority prefer to remain near their homes in the hope of better days. Prominent Poles in all walks of life maintain that drastic relief measures are necessary if wholesale deaths from starvation are to be prevented.

Suffering is especially acute among the families of Russian reservists who formerly received regular payments from the government. Pensioners now are cut off from their former incomes and the Russians are charged with having taken with them the funds of savings banks depositors.

The country districts of Poland from one end to the other are battle-scarred, barren and fire-swept. In the Warsaw governmental district alone, it is estimated that 4,000 villages were burned by the Russians. Many of the inhabitants who at first fled with the Russians later returned and threw themselves upon the mercy of the Germans.

Thousands already have died of starvation and distress superinduced by hunger. Mothers remaining alive are so undernourished they cannot feed their children. In Warsaw and Lodz women now rise at three o'clock in the morning to get good places in the breadlines, and not miss the chance to obtain some food at least. The horror of the situation is increased by a serious shortage of coal, due in part to destruction of the mines and in part to inadequate railway facilities.

Committees composed both of Christians and Jews, with the assistance of the German government are conducting soup kitchens at Warsaw and Lodz, distributing food and fuel. All kitchens are running full blast in Warsaw while numerous asylums and homes for young and old is in operation.

Lodz is trying to feed 300,000 of its half million of its population. Homeless peasants are being given lumber and tools to erect houses before winter, living meanwhile in dug-outs near their old homes, cooking on improvised hearths. The city of Lodz is paying pensions to the wives of reservists on the chance of being reimbursed later.

Road building, railroad and bridge work are being carried on extensively in order that the unemployed may earn something. All these measures bring only partial relief, however. The German authorities are struggling desperately with epidemics of disease which have come from the ravaged sanitary conditions in the ravaged districts and are making the entire headway. Cholera, typhoid, fever and diphtheria are under control.

Statistics which appear to be authoritative show that from 250,000 to 350,000 persons are being supported in Warsaw alone.

London, Nov. 29.—The British public is not inclined to grant the German contention that the Serbian campaign of the Central powers has been brought to a successful conclusion.

The hope is expressed that the wintry weather will give time for reinforcing the Anglo-French troops until they are strong enough to assume the offensive before the invaders have consolidated their positions in Serbia.

Russia is also counted on to play a part in these operations. In the meantime the only active military operations seem to be centering around Monastir, the fate of which is obscure.

The many contradictory reports on this subject vary from the assertion that the city is still in the hands of the Serbians to the claim that the Bulgarians, accompanied by detachments of Austrian and German troops have occupied the city.

Further to the north it is reported the Serbian armies, divided into two sections, are retreating into Albania and Montenegro. It is not yet apparent whether the Anglo-French forces are to be sent against the Anglo-French lines north of Saloniki, but on the extreme of the Balkan front, the Montenegrins are expecting a heavy attack from the Austrians.

The entente ministers at Athens are said to have received a reply from Greece to their second note. Greece is reported to have promised to meet all demands which do not threaten to compromise her neutrality.

An unmistakable lull prevails along the eastern front. From the west come official reports of a lively air and sea skirmish off the Belgian coast.

Washington, Nov. 29.—With Senate Democrats in caucus and Democratic committee in session today work of organizing the 44th congress which convenes a week hence, got under way. Practically all the majority members of both branches of congress had arrived here. One of the most important matters which awaited the consideration of the senate caucus was a revision of the rules to provide for the closure of debate. A special committee, of which Senator Owen of Oklahoma, is chairman, had prepared a report recommending a modified form of closure designed to prevent protracted filibusters. A majority of the Democrats are said to favor closure, although some are expected to vigorously oppose it.

The re-election of Senator Kern as majority leader; Senator Clarke of Arkansas, as president pro-tempore and Senator Lewis of Illinois, as party whip, was forecast. Important committee vacancies mostly on the Republican side also are to be filled as well as committee places found for new Democratic senators.

House Democrats are confronted with a more difficult task because of the reduced Democratic and increased Republican membership. Not only are there many Democratic vacancies on most of the important committees, but the increased Republican membership necessitates changing the party ratio on nearly all committees to provide for the enlarged majority. There probably, however, will be few changes in chairmanship of important committees.

Three Democratic vacancies on the ways and means committee are to be filled and the naval committee reorganized in view of the defense program. Five Democratic vacancies are to be filled owing to the retirement of three advocates and two opponents of naval increases.

Canadian Government Commandeers 20,000,000 Bushels of Wheat Which Causes Flurry in American Markets

(Associated Press Telegram)
Chicago, Nov. 29.—Action of the Canadian government on Saturday night in commandeering nearly 20,000,000 bushels of numbers 1, 2 and 3, northern wheat in elevators from Fort William on Lake Superior to the Atlantic seaboard, is expected to result in only slight fluctuations in the American market, according to opinions early today of leading dealers in Chicago.

The action was taken under the special war act and an official statement issued at Ottawa stated that the price will be fairly adjusted and the grain owners promptly paid by the Canadian government. It is estimated that there is still in the hands of farmers and dealers in western Canada about 130,000,000 bushels of wheat available for export out of a total crop of about 350,000,000 bushels in the entire dominion.

It is understood that a large portion of the wheat commandeered will be shipped to Italy. George E. Marcy, president of the Armour Grain company, and Joseph Rosenbaum, head of the J. Rosenbaum Grain company, two of the largest exporters here, are among those who do not look for quick changes in prices. Mr. Marcy predicted that the Canadian government's action would release greater quantities of wheat for immediate delivery.

C. H. Canby, president of the Chicago Board of Trade, would make no prediction further than to say that the demand for wheat in the United States would be affected in proportion to the extent the Canadians secure and according to the disposition the government proposes to make of the grain and the price it will pay.

Experts said the price of grain had been kept down, so far this year, for two reasons. The first, they said, is the enormous supply both in the United States and Canada, and second, the absence of competitive bidding. Most of the supplies of Great Britain and its allies have been purchased through one agent, he said.

"Evidently the action of the Canadian government is just a move to

6 Special Trains Carrying State's Corn Boys, Hurrying Through Ohio to Washington

(Associated Press Telegram)
Columbus, Nov. 29.—Six special trains carrying about 500 corn boys and girls, winners of agricultural and domestic science contests in their respective communities, were on their way through Ohio today on the start of an excursion to Washington, New York and Philadelphia, which will cover the Pennsylvania lines but was directed by the state agricultural department. The trains will meet at Pittsburgh tonight and consolidate into four tomorrow and Wednesday will be spent in Washington, Thursday in Philadelphia and Friday in New York. The return trip will occupy Saturday.

Trains were to start soon after noon today, from Van Wert, Toledo, Cleveland, New Paris, Urbana, Cincinnati and Marietta. A number of adults and several physicians accompanying the parties and special chaplains were provided for. Girls Renick W. Dunlap, secretary of the board of agriculture, J. K. Clarke, supervisor of agricultural contests, N. L. Bunnell, member of the state board and T. P. Riddle, Lima manager of the tour, took the trip. Governor Willis expects to join the party Wednesday in Washington, or Thursday in Philadelphia.

wheat grown in the United States as millers in this country who ordinarily have obtained much of their supply from Canada, will be compelled to turn to a greater extent to the home market. Shipping agents here say that the seizure of the wheat by Canada does not mean that its shipment to Europe will be diverted from United States ports as they do not believe that Halifax and St. John can handle the Canadian crop. Portland, Maine is considered a great outlet for Canadian wheat and shippers believe that a large proportion of the commandeered grain will be exported through that or other United States ports.

The amount commandeered he added, was comparatively small. Great Britain, it was pointed out, is 40,000,000 bushels short of its needs, as compared with last year, and the purchase of 20,000,000 bushels at one time makes up one-half of the shortage. No uneasiness for the future is expressed therefore among grain experts, who thought that England evidently intended obtaining the grain for its own requirements and that it desired to be sure of it.

New York, Nov. 29.—Much of the wheat commandeered by the Canadian government was under contract to New York shippers, according to grain dealers here. Many of them have dealers here. Many of them must obtain it from other sources to meet their contracts. They hope to obtain a share of the Canadian surplus not commandeered. This situation is expected here to create an increased demand for

New York, November 29.—The government was called on today to state whether it considered Captain Boy-Ed, German naval attaché in the light of conspirator with Hamburg-American line officials in dispatching relief ships to German cruisers at sea early in the war. The demand was made and repeated by William Rand Jr., counsel for Dr. Karl Buezn and in three subordinate officials in the course of their trial, for alleged conspiracy in the United States district court here.

"The government has taken no position in that matter," replied Roger B. Wood, assistant United States district attorney in charge of the prosecution, when pressed by Mr. Rand for the third time for reply.

"We have brought nobody's name into this case unless it had to be brought in. All the government has wanted to do is to submit all the facts in the case bearing on this indictment."

"It has done that without any attempt to bring anybody's name in that did not have to be brought in." What the government contends with relation to Captain Boy-Ed's connection with the case was a point which Mr. Rand was insistent should be cleared up.

"Is Captain Boy-Ed one of the conspirators in this case according to the government's contention?" he asked.

There was no reply and after a short pause Mr. Rand addressed the court, repeating the question.

"I dislike to ask Mr. Wood that question again," Mr. Rand went on, "because apparently he is very touchy; but I will ask your honor to ask it of Mr. Wood. I think we ought to know; I feel that the court should put the question."

Judge Howe was silent for several moments. When he did reply it was not to ask the question of Mr. Wood, but to rule that Christian Bentzen, first mate of the Marina Quesada, might testify concerning the movements of the vessel.

"I think that the government has shown a connection between the Marina Quesada, and the defendants," the court said. "I shall allow the witness to testify, subject to later ruling of this court."

The Marina Quesada, formerly the Gladstone, which sailed from Newport News, December 16, for Pernambuco, the defense contends, was in no way connected with the operations directed by the defendants. The government contends that the defendants sent this vessel out too.

In support of its contention it placed in evidence last week, among other documents, a telegram sent by Philip Volz, Baltimore agent of the North-German Lloyd to Hans Sulren, captain of the steamer in New York. The message was addressed to Sulren at Captain Boy-Ed's New York headquarters, Room 301, No. 11 Broadway.

Bentzen testified that revolvers were brought aboard the Marina Quesada before she sailed and that he took care of them at Captain Sulren's request after they had left port.

After examining several witnesses who testified to minor matters at the afternoon session the government rested its case.

Columbus, Ohio, November 29.—Governor Willis has ordered a rigid investigation into the reported lynching, near Gibsonburg, of John Henry Willey, whose body was found hanging yesterday, near the scene of the murder of his grandmother, of which crime Willey had been accused.

Adjutant General B. W. Hough has been ordered by the governor to proceed to Wood county, at once, and to leave nothing undone to obtain facts as to Willey's death. General Hough was in Toledo this morning, but it is understood here that he proceeded to Bowling Green at once to confer with Wood county authorities.

Governor Willis said that while the alleged lynching was a matter for the attention and action by the local civil authorities, that he wanted to know first hand whether Willey died at the hand of a mob.

**Feeling Ran High
Against Willey; His
Trial Sensational**

Gibsonburg, Ohio, November 29.—The body of John Henry Willey, 27 years old, recently granted a new trial after the jury had brought in a verdict of assault and battery in his first trial on the charge that he murdered his grandmother, Mrs. Eva Kimble, last February, was found hanging from a tree Sunday within a few rods of where the murder took place.

Threatening notes received by Willey recently indicated that he was the victim of a lynching plot. A heavy leather strap was tied around his left wrist, and both wrists were badly swollen. The right hand shows that in his death struggle he had wrenched it free. His features were contorted and his clothes disarranged, indicating a struggle.

Since the murder, which took place February 12, 1915, feeling had run high against Willey. One of the letters received boldly stated that he would be the victim of a lynching.

The theory of suicide was dispelled by the manner in which the body was found.

B. F. James, of Bowling Green, who was attorney for Willey, stated that his client had been in high spirits since the granting of a new trial. The receipt of threatening notes, however, had made him unusually cautious, James said. He had visited James at his Bowling Green office Saturday, leaving at dusk.

Willey was freed only a few days ago on \$5,000 bond. He had been indicted by the grand jury for second degree murder after the finding of his grandmother's body in her home at Bradner.

At the time of the murder his grandfather, Joel Kimble, also was found in his barn severely beaten and shot.

Willey's trial was the most sensational ever held in this section. After 25 hours' deliberation the jury brought in a verdict of assault and battery. The grandfather appeared against him, accusing Willey of the assault. The motive for the attack was unknown, but was believed to have been robbery.

Chicago Capitalist Asks Court To Compel Transfer Of Municipal Properties

Cincinnati, O., Nov. 29.—Suit was filed in the United States district court here today to compel the transfer of the Middletown Gas and Electric plant and the Franklin Electric light plant, to C. A. Munroe of Chicago, for \$485,000 and \$200,000 six per cent ten-year debenture bonds. The two companies and Anthony H. Walburg of Middletown; J. A. Anell of Cleveland, and L. C. Anderson of Franklin, Ohio, are the defendants. It is claimed in the petition filed by Munroe that the defendants agreed to the sale of the two plants for the

amounts named, the agreement being dated February 5, 1915, but that the defendants refuse to fulfill their part of the contract.

It is also set forth that when the state public utilities commission was asked to approve the transfer that body refused, and rehearing was granted and that it is now believed that the approval will be given. Munroe's petition states that he organized the Ohio Gas and Electric company for the purpose of taking over the Middletown and Franklin plants and other like concerns.

BLUE LAWS

ENFORCED IN JERSEY CITY BY CLOSING MOVING PICTURE SUNDAY NIGHT

Theatre Owners Retaliate by Causing Arrest of Motorman, Street-helpers and Others.

Jersey City, N. J., Nov. 28.—Owners of moving picture theatres here whose shows were closed Saturday night by police order, are in conflict with the city authorities over what they call "Jersey blue laws." To show the alleged absurdities of these laws, they took steps today to summon to court a dry goods merchant for selling goods on Sunday, a constable for throwing dice for cegars in a store, ten conductors and motormen for operating trolley cars, 200 storekeepers for operating automobiles.

The moving picture men will aid in the prosecution of three men arrested Sunday, two for selling gasoline for automobiles and one for buying.

Atlanta, Ga., Nov. 28.—Efforts to reduce the number of charges of illicit distilling on the docket of the local federal district court which have not fallen below 515 at the end of each fiscal year for the last twenty, will be made by Federal revenue officers here through co-operation with the state courts and officers, it was announced today.

Statistics given out say that 512 cases, the smallest number in twenty years, were on the docket at the end of the present fiscal year. In 1913, there were 525 cases on the docket; 829 in 1912 and 758 in 1911.

PRESIDENT

RETURNS TO WORK ON MESSAGE
FIANCEE REMAINS IN
NEW YORK CITY

To Purchase Parts of Her Trouseau
Message Nearly in Shape
For Public Printer.

Washington, Nov. 28.—President Wilson returned from New York early today and immediately went to the White House and began on his next annual address to congress. On the return trip the President was accompanied by Senator Hughes of New Jersey, Secretary Taft, and Dr. Cary T. Grayson, the White House physician. Mrs. Norman Galt, his fiancée, remained in New York to purchase parts of her trousseau.

The President had the main outlines of his address to congress finished and expects to get it in final shape for the public printer today. He took the address with him to New York and discussed it with Colonel E. M. House, his personal friend and political adviser.

While in New York, the President is understood to have discussed the outlook for peace in Europe with Col. E. M. House, who went abroad several months ago to investigate the situation for the President.

It is not believed, however, that the President will initiate a conference of neutral nations to attempt to end the war as suggested to him last week by a delegation of peace advocates.

GOOD RESULTS AT REVIVAL MEETING, CENTRAL CHURCH

Twenty-three persons answered call of the gospel invitation at the Central Church of Christ revival yesterday. Evangelist Roy L. Brown and his splendid helpers had a busy day of it. The evangelist spoke five times and went from one service to another in succession without lagging. There was enthusiasm and power in every sermon and song. A great crowd was assembled at the morning hour. The sermon was one that told of the fidelity of the early church, and many striking illustrations were given pertaining to the work and steadfastness of the early body of Christ. Professor Leigh sang "The Way of Peace."

At 8:00 p. m. the auditorium and gallery were full, and another inspiring service was held. The speaker spoke on "Mother, Home and Heaven," and the message was one of uplift. Song Evangelist Leigh sang "Memories of Mother." It is being noticed that the songs rendered in this meeting are above the ordinary. Professor Leigh has the happy faculty of knowing how to sing.

Following the Christian Endeavor rally in the basement, a large audience assembled in the auditorium for the night service. The rain did not keep people away. The interest is widespread, and is growing now from day to day. The special music was a feature last night. R. Leighton Brown, the cornetist, rendered a solo, and at the close, the evangelist, song leader and cornetist sang a trio, all of which was highly appreciated. Professor Leigh sang "Shadows."

The people are just coming to realize that the Roy L. Brown Evangelical company is a party of varied talents and powers.

Tonight's subject, "When I Come to Die," will draw a big crowd without a doubt.

Tomorrow night the evangelist will deliver a sermon on the subject "Is There a Hell?" This sermon will be based on Bible teaching and will deal directly with some of the present day fads and religion.

This will be a busy week. Services begin each evening with a splendid song service at 7:30 o'clock.

Some people are so eager to be on the right side that they will even take both sides.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these uric acid fillets do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headache, chilliness and rheumatism. In some cases there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anuric."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for kidney trouble and backache. Neglected kidney trouble is responsible for many deaths, and Insurance Companies examine doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination. This is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition, send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

SELL WATER FOR \$1 A BARREL IN AN ALASKAN TOWN

Seward, Alaska, Nov. 28.—As a result of cold weather water is selling today at \$1 a barrel at Anchorage, the new town established by the government, as construction headquarters for the Alaskan railroad. If purchased by the bucket the price is 15 cents, or two buckets for a quart.

Pending the completion of the water system, which the government engineers hope to have working within two weeks, all water for domestic purposes is taken from holes chopped in the ice.

FREIGHT WRECK; 30 CARS PILED; NONE INJURED

Philadelphia, Nov. 28.—One of the most serious freight wrecks in a long time on the New York division of the Pennsylvania railroad occurred at Cornwall, eighteen miles east of Philadelphia, at 11:30 o'clock last night and traffic was blocked many hours. The train on which President Wilson returned to Washington from New York, was one of the many that had to be diverted over other routes.

No one was hurt, but thirty freight cars were damaged and piled up over the four tracks of the road. The accident was due to the failure of the engineer of one of the two freight trains involved to obey signals. Both freights were going east on different tracks and one crossed over at a switch and crashed into the middle of the other.

At 8 a. m. today traffic was still blocked.

TIME RIPE

FOR ALLIES, NOW TO DICTATE
PEACE TERMS, CLEAR
AND DEFINITE

On Grounds that Victory is Certain
Says the London Post in
An Editorial.

(Associated Press Telegram)

London, Nov. 28.—Belief that the time has arrived for the allies to dictate clear and definite terms of peace, is expressed in the Post in an editorial, on the ground that there will be less chance of losing in negotiations, what has been gained on the sea and in the field. The Post contends that without "selling the skin before killing the bear" it may be assumed victory for the allies is assured if only because, without undue strain, Great Britain could maintain a naval blockade indefinitely, and history has shown that such pressure alone would be in the end secure victory.

The newspaper also protests strongly against the treaty of commerce which has been negotiated between Great Britain and Denmark permitting commodities to be re-exported from Denmark to neutral or belligerent countries if shipments to belligerents are not contraband.

"In other words," says the Post, "the foreign office has created an agency whereby this country may trade with the enemy. This seems to us monstrous."

MORE BIBLES TO BE PRINTED THIS YEAR THAN EVER

(Associated Press Telegram)

New York, Nov. 28.—American publishers of the bible are this year for the first time selling bibles in the British, French, Russian, South African and Australian markets. The publishers estimate that the number of Bibles printed in the United States this year will exceed the normal by fifty per cent, an unprecedented increase. One of the largest Bible houses of this city reports the publication and sale of a million Bibles within a year. Bibles for the Christmas trade are being published in 980 different styles and will sell from 20 cents to \$50 a copy.

IMPROVEMENT IN "EMPRESS" BY MR. HARRIS

Will D. Harris, lessee of Buckeye Lake park, who recently took over the lease on the Empress theatre near the Southern Hotel on High street, Columbus, O., has already wrought a wonderful change in the theatre and by putting on high class vaudeville is catering to the best element of the theatre-going people of Columbus.

The house had been "dark" for months when Mr. Harris took charge. He redecorated the theatre with good taste and the house is kept as neat and clean as any place could be.

Gradually Mr. Harris is increasing the business of the Empress and he will no doubt soon have the house transformed from a "dead" one to a "live" one.

Bernard Smith who is with Mr. Harris in his Buckeye Lake park enterprise, is also secretary-treasurer of the Empress.

COLLISION

BETWEEN TOURING CAR AND
RUNABOUT RESULTS IN TWO
BEING INJURED.

Hebron Jeweler and Sister-in-law, in
Smaller Car, Hurled Down
Embankment.

John F. Vickers, the jeweler at Hebron, who resides on the Harley Bright farm near Jacksontown, while driving west on the National road Sunday evening, was run into by another machine and met with injuries which will probably confine him to his home for several days.

Mr. Vickers was driving a Ford runabout and was accompanied by his niece, Miss Juanita Sayers, of Jacksontown. When about a mile east of Linville, Mr. Vickers heard a big car coming up behind and pulled to the side of the road to allow it to pass. There was plenty of room, so spectators who witnessed the accident claim, but the touring car struck the Ford and turned it over down an embankment, throwing out its occupants, Miss Sayers having her collarbone broken, while Mr. Vickers sustained cuts and bruises and an internal injury.

The road at the time was lined with autos and Dr. H. H. Baker of this city was the first to reach the injured people, the driver of the big car having hurried away without stopping to inquire what damage had been done. Dr. Baker assisted in carrying Mr. Vickers into a nearby residence and wanted to phone for an ambulance and bring him to the hospital in this city, but Mr. Vickers wanted to be taken home, and his wishes were complied with.

This afternoon the injured man was resting comfortably, but it will be impossible to determine his exact condition for several days as he was injured internally. He was attended by Dr. Brown of Jacksontown.

KILL KARE KAMP.

(By Ethelyn O'Brien.)

Never have I seen such a nice camp. It has a fascination about it every girl likes. I never enjoyed anything so much as "Kamp." At night we went on hikes, had moving picture shows, had marshmallow toasts, and corn poppings, in fact anything appropriate for night enjoyments. Several times we had a watermelon feast. And through the day we went fishing, swimming, on hikes, and after wild flowers.

All I hope is that camp will last longer and that the same people and the same cook will be there next year.

ALL-OHIO TEAMS FIND DENISON REPRESENTED

With the closing of the football season, the usual selection of the mythical all-Ohio football eleven has been made by sport writers over the state, and Denison this year contributes two players to nearly every selection, three being chosen by some of the sport writers. These men are Thiele, Rupp and Ladd. The first two named are almost the unanimous choice for end and half back positions.

The Dispatch places Thiele at end and Rupp in the back field without argument. Among those given honorable mention are Ladd at quarter, Brock at end, Clary at tackle, and Hickman at fullback.

The Cleveland News selects Thiele and Rupp for the mythical eleven in which Ohio State is included in its consideration, and the same men with Clary added, in considering all other Ohio eleven but Ohio State.

The Enquirer places Thiele and Rupp on the first team and Brock, Barrington, Meredith, Ladd and Hickman on the second team. The

paper gives a list of subs which does not include any Denison player.

The Cleveland Leader selects Thiele and Rupp on the first team and no other Denison man on the second team.

The Cincinnati Times-Star's selection names the same men and adds Hickman for the full back position, no Denison man being selected for the second team.

The Plain Dealer selects Thiele and Rupp, besides placing Brock at end and Meredith at tackle. This selection is made without considering Ohio State on the theory that State should be considered a western conference team.

The Dayton Journal places Ladd, Thiele and Rupp on the first team and Brock on the second.

The Tribune adds Hickman to the full back position after placing Thiele and Rupp at end and half-back. Ladd is given the quarter-back position on the second team.

PAN HANDLES TO MEET ALL-STARS NEXT SUNDAY

Roudebush and Reese, stars of the 1914 Denison eleven, will play on the All Star team which meets the Columbus Pan Handles at Columbus next Sunday, according to announcement made in Columbus today. Butterfield of Miami, universal choice for an all-Ohio team is another star. Others are Cherry, O. S. U., Gardner, Carlisle, Axtel, all-Ohio end a few years ago, Powell, O. S. U., Kagy, Reserve and Drumm, present coach at Marietta.

Oliphant, former Purdue star, scored both touchdowns for the Army and kicked both goals. The game was played in a drizzling rain.

Canton Downs Massillon

Canton, Nov. 29.—Canton professional football team won from Massillon Tigers here yesterday in a game played for state professional honors, by a score of 6 to 0. Canton's scores came on a field goal and a kick from placement by Jim Thorpe, the big Indian who starred at Carlisle.

EXPLOSION OF NATURAL GAS AT GRANVILLE

TWENTY FEET OF THE FOUNDATION BLOWN FROM UNDER DWELLING HOUSE.

Gas Had Escaped Into Cellar From a Sewer—Leak Discovered By Striking Match.

(Special to Advocate.)
Granville, Nov. 29.—A casualty which narrowly escaped being a fatality occurred yesterday afternoon at the home of Mr. "Alec" Roberts, in Summit street, just east of Pearl street, when about twenty feet of the foundation was blown out by a gas explosion in the cellar of the house. It has been noticed for some time that there was an escape of gas through the sewer, but efforts to locate it were unavailing until Mr. Harry E. Thomas, contractor, was summoned. He went to the cellar of the Roberts house and at once discovered the trouble by the simple and direct method of striking a match. That he himself escaped injury in the terrific explosion which followed, seems like a miracle. Discovery has been made that the gas line on College street has been "tapped" by unauthorized parties, and also that Broadway serves one or two such cases.

The Thanksgiving recess ended today and once more the old college bell is marking time not only for students but also for townspeople, who miss its hourly summons when its voice is silent. Students have returned and visitors have departed, leaving things very much as they were before the holiday.

The Swartz house-party is breaking up gradually. Today Mrs. Elizabeth Edmonson Lambert returned to her home in Pontiac, Mich., accompanied by Miss Vivian Critchfield of Chicago, who will remain with her for a week's visit. Miss Dorothy McCann and Miss Bess Billman also left today for their homes in Dayton.

Miss Clara Sheldon, who belonged to the Babb-Swartz bridal party, left last evening for her school in Middletown.

Miss Ada Roudebush of Newtonville, who has been one of the house-party at the Swartz residence, left today for her home.

Miss Claire Geach, who spent the Thanksgiving recess with her parents, Mr. and Mrs. John Geach, has returned to her school in New Lexington.

Members of the Engwerson Chorus at work on "The Messiah" to be presented on December 12, should be in their places for every rehearsal which remains.

Dr. and Mrs. R. S. Colwell, who went to Cincinnati on Friday, have returned to their home in South Prospect street.

Mrs. W. B. Evans, who attended the wedding of her sister, Miss Dorothy Swartz, on Friday evening, has returned to her home in Hebron, accompanied by her sister, Mrs. Frank Withoff of Georgia, who will visit her for a few days.

Dr. George A. Dorsey, after a pleasant four days visit at the home of his parents, Mr. and Mrs. E. J. Dorsey, has returned to his home in Chicago.

Mrs. A. S. Ullman of Loudenville is visiting at the home of her cousins, Mr. and Mrs. W. P. Ullman in North Pearl street.

The W. C. T. U. held its regular meeting on Friday afternoon at the home of Mrs. Henry Palmerston in East Elm street with a large number in attendance. The president, Mrs. John McClam, led the devotional service and announced Mrs. J. G. Ewart as leader of the program. Mrs. Ewart's general topic was "Evangelical Work," and her particular application was "Prayer," which she considers the most powerful factor in the work of the W. C. T. U. Prayers were offered by Mrs. Wood, Mrs. Howe, Mrs. Yingling, and Mrs. Meyers. Miss Abbie Davies gave a reading entitled "Prayer," and several songs were sung by the company. The next meeting, on the fourth Friday, will be held at the home of Mrs. Jenkin Jones.

Mrs. Edward Wright gave a charming afternoon tea Friday at her home in East College street, which was enjoyed by the following guests: Misses Lily and Myrtle Jones, Miss Blanche Houston, Miss May Stark, Miss Belle McDonald, Miss Gertrude Carpenter, Miss Evans, Miss Evangeline Davies, and Miss Abbie Davies.

The Bible Conference to be held in the Fifth Street Baptist church in Newark, beginning this evening and closing Wednesday evening, is of interest to church people in Granville. Dr. J. C. Masse of Dayton will be the preacher each evening. Prof. A. T. Robertson, D. D., of Louisville, Ky., will give four Bible lectures on Tuesday and Wednesday. On Wednesday afternoon Rev. Millard Breisford will give a paper on "The Believer's Assurance."

In the absence of Miss Lolla C. Brown, organist and chorister of the Baptist church, Miss Eva Wright presided at the organ and Prof. E. P. Johnston directed the choir for Sunday's services.

FRAZEYSBURG PEOPLE SUED FOR DAMAGES

Zanesville, O., Nov. 29.—The trial of a \$10,000 slander suit from Frazeyburg started in common pleas court this morning before Judge J. M. McGinnis of Caldwell and a jury. The plaintiff in the action is Ella Freese and her attorneys are Andrews and Kuntz. The defendant, Samuel Huffman, is represented by Attorneys O'Neal and Riley. Over 50 witnesses have been subpoenaed.

REHEARSALS PROGRESSING SPLENDIDLY

Rehearsals for the Eagles minstrels are being held nightly and great progress is being made. "Pop" Bank of Columbus, assisted by Steve Berrian, a comedian with a country-wide reputation have charge, and this assures the public that the minstrel will be above ordinary, one of the best ever given by an amateur company.

Win Griffith and Enoch Somers, two of Zanesville's famous comedians, have been secured to assist the local Eagles and they will have a prominent part. Mr. Oscar Stanton will act as interlocutor for the two noted fun makers and his many friends will be glad to welcome him when he makes his appearance before the footlights, as he has a reputation of being one of the best middlemen in the country.

The costumes are said to be elaborate and the special scenery was designed by Sanks & Berrian, especially for entertainments similar to the one which will be given in this city. The electrical effects are new and novel and well worth seeing.

The minstrel is for the benefit of the convention fund of the Eagles and no doubt will be liberally patronized. The dates are Monday and Tuesday, December 6 and 7. Be sure and reserve your seat as there will be fun and jolity for all.

MUCH INTEREST IS AROUSED IN TRINITY MISSION

The mission being conducted at Trinity church by Rev. H. H. D. Sterret, of Columbus, as missionary, has already considerable interest. Two good audiences greeted the preacher yesterday.

Mr. Sterret's object would seem to be, first to recall the people of Trinity and of the city generally to the inherent desire of the human soul for the knowledge and love of God, and secondly to show how this desire may be satisfied by knowing and obeying our Blessed Lord and His church.

Mr. Sterret's preaching, while in no way sensational, is earnest and forceful. No attempt is made at agitation or destruction but is entirely constructive.

The emphasis is placed on the "Thou shalt" and not on the "Thou shalt not."

Meetings will be held at Trinity every evening during the week at 7:30 o'clock and all are invited.

A Week of Prayer will be observed at Plymouth Congregational church from November 29 to December 5. William W. Newell, D. D., national leader of Congregational Forces, is to preach, Sunday, December 12.

Sermon topics for week of prayer: Monday evening—The Passover into the Kingdom of God.

Tuesday evening—Where Christ Would Fall.

Wednesday evening—Reverence and Friendship Toward God.

Thursday evening—Judging Others.

Friday evening—The Taciturnity of Jesus.

Saturday evening—Things Immovable.

Sunday evening—Rolling Away the Stone.

Zanesville Resident Says Nerv-Worth Worked When All Tonics Failed.

In one of the Zanesville Nerv-Worth endorsements printed in these columns the following eloquent words appeared:

"After taking Nerv-Worth just two weeks * * * I gained 6 1-2 pounds. * * * New strength came with new flesh, my nervousness disappeared, good restful sleep came back. Nerv-Worth sets all the credit when other medicines had failed entirely."

The statement was made by Mrs. Nora Owens, of Zanesville. It is one of many that have proved the superiority of Nerv-Worth over all other, nerve builders. There's no shadow of doubt on this score. The most widespread disease in the world

The most widespread disease in the world today is that dread affliction of the teeth called pyorrhea. Nine out of every ten grown persons have it to some extent. You may have it and be unaware of it. To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient

form of Senreco Tooth Paste. Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. ESTABLISHED IN 1870

Entered as Second Class Matter
March 10, 1882, at the Postoffice at
Newark, Ohio, under Act of March 4,
1879.

Mrs. Galt may be able to trim her
own hats, but it is believed she will
draw the line on pressing the Presi-
dent's trousers.

The big cities are showing their
love for music by attending the
operatic performances having the
most agile toe dancers.

After sending a boy to college to
acquire fame by his brains, one finds
it much more apt to come through
the length of his drop-kick.

It would be too bad if Congress
bought a wedding gift for the Presi-
dent that was too big to go through
the White House front door.

Some people's idea of public spirit
is using their massive brains to
criticize whatever other people may
do for the public benefit.

After taking special care to get
handsome appearing fur topped
shoes, some of the women seem an-
noyed that people will look at them.

The fact that white stockings are
conspicuous does not seem to be any
obstacle in the way of the people
who are trying to make them more
popular.

Perhaps the dancing craze would
not have died down quite so quickly,
if there were not so many men will-
ing to let a nice girl remain a wall-
flower all the evening.

The Congressmen are waiting only
for the time when they get a public
building for all the towns of their
district, before they adopt a policy of
strict economy in the matter of ap-
propriations.

Investigating committees are look-
ing over school buildings in many
places as the result of the recent fire
horrors. After a report recommending
fire escapes and other safe-
guards is made and pigeon holed,
everyone feels a lot better.

A man who was being taken to
ride by an automobile demonstrator
was asked where he would like to go.
He suggested a drive to the Alms-
house, which was not inappropriate,
considering the high charges for de-
preciation, gasoline, and tires.

Advertising the Churches.

It was reported at the Middle
States Unitarian conference at Pitts-
burgh, Pa., a few days ago, that de-
nomination had increased its distri-
bution of pamphlets the past year by
200,000 copies. Also the churches
were reported to be using a good
deal of newspaper advertising. Evi-
dently this denomination realizes the
value of printer's ink and publicity.

The newspapers are always gen-
erous about free notices for the
churches. At the same time they
are under no more obligation to con-
tribute service free than are the mer-
chants to give the carpets, fuel,
lights, and other supplies.

It costs money to print a news-
paper, just as its costs money to
print hymn-books, or to make a
cook stove for the church parlor.
The newspaper man is under obli-
gation to be generous to a good pub-
lic cause, just as are all other busi-
ness men.

Revenue Revolution
Inevitable.

(Cincinnati Enquirer.)

Amid the discussion preliminary
to the meeting of Congress upon the
subject of meeting the Treasury
deficit and making financial plans
for the future, the thought is not
upon a sound basis for revenue. The
great European war has decisively
upset both the Republican and Dem-
ocratic systems of support through
custom house receipts. If the pro-
tective tariff today were higher by
50 per cent than the most extreme
laws of the past, little would be ad-
ded to the income from imports, thus
disposing of the Republican preten-
sions. If the present schedules were
lowered 50 per cent the negative re-
sult would be the same. The reason
is identical for both—lack of im-
ports. If no goods are brought in,
no custom duties can be collected.

Tariff schedules cease to have value.
Both of the political parties are
pleading that when the war ends
their separate remedies will again
become efficacious. Accepting both,
it is fair to ask the question: For
how long will their efficacy last?
Only until the next "abnormality"
disclose itself! Wars have a queer
trick of recurrence. Exiles to Elbas
return to conflict in spite of threat-
ened St. Helenas. The present giant
human massacre has demon-
strated generally that many wise
men knew as individuals; i. e., that
a financial budget system based upon
foreign trade is a house built upon
sand. The longer the war lasts
abroad the more complete will be
the demonstration of this assertion,
because the deficit in governmental
income will steadily increase. This
condition presents the paradox of a
prosperous people whose Government
alone is excluded from its share of
their good fortune. Money is plen-
tiful everywhere save in the public
treasury.

Next month Congress will have to
provide temporary measures of re-
lief for current expenditures and
then look about it for the organiza-
tion of a completely new departure
in revenue producing laws. It is to
be remembered that in addition to
the mere matter of providing for
household bills the national legisla-
ture must find sources for the sup-
port of the expected program of mili-
tary preparedness, the cost of which
is estimated at one billion dollars as
a beginning. Use of the Republi-
can curtail, high protection, or the
Democratic tariff for revenue only,
will be futile in the treatment of this
case of financial anemia. The one
idea, or single-tracked mind, tariff
pleaders of both parties should be
sent packing and advice sought from
other schools of thought in order to
make provision for the coming great
change, which conditions make in-
evitable. The country will have
willy-nilly to learn to support itself
internally.

When this has been accomplished
then will come the time to develop
not a scientific, but a fair and logi-
cally protective tariff. Neither politi-
cal parties nor administrations will
be frightened in those days by the
fear of deficits created by an effort
at proper adjustment of customs
duties, but will calmly consider com-
mercial conditions, free from the
sordid thought of selling protection
where it is not needed in order to
secure money for governmental and
partisan purposes. Nor will there be
any need for expensive tariff com-
missions, trade relation bureaus and
all such stuff and nonsense. Emancip-
ated from the tyrannical rule of the
selfish system, the average Congress-
man can be trusted to deal fairly
with the subject. It will then be
truly, as General Hancock said prop-
hetically, a local question.

Spirit of the Press

Where Boys Still Are Boys.
"Robinson Crusoe" won first place
easily in a book-popularity contest in
the schools of Menominee, Mich.
Evidently there is one place on the
map of the United States where boys
still will be boys, despite the pre-
cocity of the age and multiplying cig-
arettes and devil-wagons. —New
York World.

Child Labor in Georgia.
Efforts to persuade the Georgia
legislature to create the office of
factory inspector to enforce the new
Child Labor law are reported to have
failed. Was it not in Georgia that
the governor spoke recently of a cer-
tain feeling—he would not call it
chivalry, he would not call it any-
thing else—which caused Georgians
to lose their heads when they saw a
child maltreated? —New York Evening
Post.

A Unique Philadelphia Orchestra.
Philadelphia has the distinction of
supporting a harp orchestra. A mu-
sical organization of this character
is doubtless very unusual as a per-
manent institution, although a band
of harps only may have been heard
occasionally both here and abroad.
The orchestra, consisting of 14 harp-
ists, is composed entirely of women
and girl players who have been
banded together through the en-
deavors of a local musical club. Its
concerts are strikingly new to Phila-
delphia and have attracted consid-
erable interest. —Popular Mechanics
Magazine.

Spain Honors Cervera.
The other day Cervera's remains
were interred in the Pantheon, at
Madrid, under a monument with this
inscription: "Here rest, in this
sacred spot, the mortal remains of
Vice Admiral Cervera, a gallant sail-
or, a man of honor, faithful, up-
right, a model of abnegation, cour-
tesy and all the Christian virtues."
Americans, who never at any time
failed to see the glory of Cervera's
forlorn hope charge at Santiago, and
who have never failed in paying due
honor to the living man, and the
dead man's memory, feel a satisfac-
tion at this belated tribute from his
own country, to one who wrote a
glorious page in its history in mak-
ing a hopeless sacrifice, of which the
disastrous end still justified the
heroic means. It can now be said
that, had Cervera failed in 1898,

that very thing for which he was
once the most condemned in Spain,
Spanish honor would be blotted and
the body of Cervera would not rest
in Spain's Pantheon.—St. Louis
Globe Democrat.

The Associated Press.
A remarkable instance of the ac-
curacy and speed with which the
newspapers collect election returns,
either through the Associated Press
or private agencies, is reported from
Boston. At 3:20 a. m. on Novem-
ber 3, the day after election, the As-
sociated Press announced that Sam-
uel W. McCall had been elected gov-
ernor of Massachusetts by a plural-
ity of 6363 votes. The official count
just concluded gives this plurality as
6376, a difference of only 13 votes.
We cannot equal that record here in
Pennsylvania, and it is doubtful if it
has ever been matched before.—

Rippling Rhymes

Such Is Life.
I had a stately pony, the smooth-
est nag alive, no feature of him
phony, and safe for girls to drive.
His skill at fancy pacing was known
both wide and well, and folks were
always chasing, and asking me to
sell. They offered fancy prices, and
dangled me every place, and often
branded slices of money in my
face. "I'll keep my nifty charger,"
I said, "He's not for sale, though
larger still and larger you make your
rolls of kale. I'll put no price upon
him, nor value him in bones; I treas-
ure him, doggone him, far more than
precious stones." At last I was per-
suaded to buy a motor car, in which
I have paraded around the busy
mart. I said, "I'll sell my pony, for
steeds are out of date, and what he
brings in money will help to pay the
freight." I thought that many a buyer
would lustie to my door, and bid
the price up higher than an ace. It was
before, but not an eager duffer came
round to put up ice, and no one
seemed to suffer for nags at any
price. No person wished to cop him
at bargain counter rates, and so I had
to swap him for rusty roller skates.
And in my mind has jaunted this
thought, until it's stale: A thing is
seldom wanted, unless it's not for
sale.

COLLISION IN CITY.

During the darkness which settled
so suddenly during the wind and rain
storm of Sunday afternoon two ma-
chines collided at the corner of West
Main and Fourth streets. One of
the cars was coming down Fourth
street and the other was going west
on Main. The heavier car escaped
with a broken fender, while the Ford
owned by a man living near Browns-
ville had the steering gear broken.
It was taken to the Hess garage for
repairs.

WILLIS

DECLINES INVITATION TO AC-
COMPANY HENRY FORD'S
PEACE PARTY

On Account of "Affairs of State,"
Although a Second Urgent Tele-
gram Is Sent Him.

(Associated Press Telegram)
Columbus, Nov. 29.—Governor
Willis will not accompany Henry
Ford to Europe on the Ford Peace
commission trip. The governor to-
day telegraphed Ford that affairs of
state prevented him from leaving
Ohio at the time the expedition is
expected to be under way.

The governor sent his answer af-
ter receiving a second telegram from
Louis P. Loehner, New York, secre-
tary to Mr. Ford, urging him to take
the European trip. The message
follows:
"I sincerely hope you can shake
public business of Ohio, however im-
portant it may be, long enough to
serve the higher cause of humanity.
Mr. Ford authorizes me to say that
while the length of the trip con-
templated is six weeks, he will be glad
to make arrangements for anyone to
return sooner if necessary. He will
provide transportation facilities at
his expense."

The governor explained he could
not well appoint a member of the
peace monument commission, whose
members he announced Saturday as
had been suggested, to represent
him, because Mr. Ford did not ask
him to name a substitute.

The governor's telegram was as
follows:
"Columbus, Ohio, Nov. 29, 1915.
"Louis P. Lechner, secretary to Hen-
ry Ford, New York City:

"Though interested in cause inter-
national peace, I nevertheless owe
first duty to Ohio, whose servant I
am. Important public business de-
mands attention. I must therefore
decline kind invitation to join peace
conference aboard Oscar II. Sincere
thanks for invitation. Best wishes
for success efforts to bring peace to
war-stricken Europe."
(Signed)
"FRANK B. WILLIS."

In the adaptation of the celebrated
dramatic success, "The Mummy and
the Humming-bird," the Famous
Players Film Co. introduces another
famous Frohman star, Charles Cher-
ry. The drama is one of those rare
plays which permits an actor of real
ability to display the full force of
his histrionic power. "The Mummy
and the Humming-bird" recounts
the tragedy of a neglected wife who
seeks amusement in the company of
an unscrupulous Italian novelist, Sig-
nor D'Orelli, known as the humming-
bird, who seeks first-hand infor-
mation of the experiences and emotions
of which he writes.

CAR STRIKES AUTO TRUCK.
The delivery truck for the R. H. Hartshorn grocery, 201 North Fourth street was struck by a North Fourth street car at noon today. Mr. Hartshorn was driving the Ford truck, when in attempting to turn around he turned in front of the car. The machine was carried about fifteen feet before the motorman could stop the car. The only damage done however, was a broken hub cap, and a damaged tool box.

Love occasionally dies a lingering death, but its funeral is more often due to heart failure.

PARENTS AND DOCTORS MUST REPORT CASES

With numerous cases of scarlet fever, diphtheria, small pox and chicken pox in towns around Newark, Health Officer Knauss is making an effort to avoid an outbreak of these diseases in Newark. To this end he asks parents, doctors and school teachers to report promptly to the health office any suspicious cases which might develop into one of the four diseases mentioned. There are numerous cases of chicken pox in the city now and as rapidly as these cases are reported, the homes are quarantined.

The law requires that all contagious diseases be reported immediately to the health department and while the law is pretty generally observed by most physicians, some of them have neglected to make such reports.

"This is the last warning before causing the arrest of parents and physicians who violate this law," said Dr. Knauss this morning. "If Newark is to be kept free from dangerous epidemics, there must be a rigid enforcement of the quarantine regulations," he added.

TOLEDO COMPANY DENIES REPORT OF BIG FIRE DAMAGE

(Associated Press Telegram)
Toledo, Nov. 20.—Officials of the Toledo Machine and Tool Company today denied emphatically that a fire in their plant on November 25, had caused a loss of \$100,000 and that the company has been manufacturing war munitions as was stated in a report of the occurrence of that date. The company authorities said the loss was only about \$500 and that the report they had been filling war contracts was absolutely untrue.

Mayor Resumes Duties.

Mayor R. C. Bigbee returned Sun-

day night after a two weeks' visit in

Richmond, Va. While absent, the

mayor visited the new town, Hope-

well, established at City Point near

St. Petersburg, where there have

been established large powder fac-

tories making explosives for the allies.

This town has a population of 35,000

people, and a few months ago the

site was bare of any buildings. Eight

or ten trains a day carry employ-

ees to the city who can not find ac-

commodations there. The factories run

day and night, using three shifts of

eight hours each. Mayor Bigbee re-

sumed his duties this morning sitting

in police court. Justice D. M. Jones

BREAK A CHILD'S
COLD BY GIVING
SYRUP OF FIGSCLEANS THE LITTLE LIVER
AND BOWELS AND THEY GET
WELL QUICK.

When your child suffers from a

cold don't wait; give the little

stomach, liver and bowels a gentle,

thorough cleansing at once. When

croup, peevish, listless, pale, doesn't

sleep, eat or act naturally; if breath

is bad, stomach sour, give a tea-

spoonful of "California Syrup of

Figs," and in a few hours all the

clogged-up, constipated waste, sour

bile and undigested food will gently

move out of the bowels, and you

have a well, playful child again.

If your child coughs, snuffles and

has a sore throat give a good dose

of "California Syrup of Figs" to

evacuate the bowels no difference

what other treatment is given.

Sick children needn't be coaxed to

take this harmless "fruit laxative."

Millions of mothers keep it handy

because they know its action on the

stomach, liver and bowels is prompt

and sure. They also know a little

given today saves a sick child to-

morrow.

Ask your druggist for a 50-cent

bottle of "California Syrup of Figs,"

which contains directions for babies,

children of all ages and for grown-

ups plainly on the bottle. Beware of

counterfeits sold here. Get the genu-

ine, made by "California Fig Syrup

Company."

LYNCHING

(Continued from Page 2.)

buggy were standing. A neighbor

of Willey's said he had heard sev-

eral automobiles speed past the

house about midnight and also heard

several shots.

The threatening letters received

by Willey are the only clew to the

identity of the lynchmen in the hands

of the authorities. Poses were or-

ganized and are searching the coun-

try for miles around.

Coroner Stickler, of Hoytsville,

stated tonight that he would be un-

able to give a verdict until Thursday.

Wood county officials were busy

today seeking evidence as to how

John H. Willey, recently tried for

the murder of Mrs. Eva Kimble, his

grandmother, came to his death by

hanging on a farm near his home

four miles from here yesterday.

Some officials called the case sui-

cide while others refused to com-

mit themselves and admitted today

that there was some basis for the be-

lief expressed by Willey's attorneys

that he had been lynched. Sheriff

Skibbie investigated a report that

several citizens of the vicinity had

"ducked" and found this to be un-

true. He could find no trace of any

mob which had been reported as

having been heard shooting from the

vicinity. Willey was hanging from a

noose made from the sash cord of a

window. Officials are trying to

trace this cord in the hope of un-

raveling the mystery. B. F. James,

of Bowling Green, Willey's prin-

cipal counsel said today, "Willey never

intimated any intention to commit

suicide," and that he had received

threatening letters following the

verdict of "guilty of assault," re-

turned by the jury in the Kimble

murder case. This verdict had been

set aside by the court and Willey

was free on bond pending retrial.

James said he would submit evi-

dence to the coroner at the inquest to

show that Willey was lynched. He

claimed Willey's hands had been bound

and his hat was found some distance

from his body. He also says Willey's

horse and buggy were found loose a

mile and a half from the scene.

Sheriff Skibbie says Willey's hands

were not tied. Willey had been in

Bowling Green to see James and was

on his way home when he met his

death. Mrs. Kimble was killed in

her home last February. At the

same time her husband was at-

tacked, shot and wounded. He re-

covered and was the principal wit-

ness against Willey at his trial. Cor-

oner Spiller will hold his inquest

at Bradner, where the body was taken.

DRUGGISTS OF ZANESVILLE PRAISE GREAT MEDICINE

CULBERTSON & GORSUCH SAY
TANLAC EXCELLENT PREPARATION FOR CERTAIN AILMENTS

Information as to Its Merits Gleaned
From Satisfied Buyers
of It

The leading druggists everywhere have recommended Tanlac because they know it is a meritorious medicine and they hear from those who use it that it has a good effect. Messrs Culbertson & Gorsuch, through whose stores it is sold in Zanesville, are no exception to the rule. On the subject they say: "We regard Tanlac as an excellent preparation for the ailments claimed to be benefited by it. We have reached this conclusion largely by the expressions of people who have taken it and who positively assert that it has helped them. It has an unprecedented sale and is the greatest repeater by long odds we have ever handled. A very large per cent of those who have taken it have purchased the second bottle, quite a number the third and some as many as four bottles, which to our mind and from our observation and experience is proof positive of its merit in the treatment of catarrh, colds, rheumatism, disordered stomach, sleeplessness, depressed feelings, pains in the side, back, etc." Tanlac the Master Medicine, is now being sold in Newark through the drug store of Frank D. Hall.

MISSIONARIES, INTERRED, ARE GIVEN LIBERTY

(ASSOCIATED PRESS TELEGRAM)
St. Johns, N. F., November 29.—Eight Moravian missionaries of German birth who were brought here

for internment some time ago, are now back at their stations on the Labrador coast, under supervision of members of the Newfoundland constabulary. The men were ordered to St. Johns at a time when the government feared it might be possible for them to transmit information to German vessels which it was suspected might have reached these waters. Upon assurances being given by the missionaries that they were not engaged in any illegal acts and that they were willing to have their mail examined by the authorities, it was decided that they should be permitted to return.

Mrs. Julian Heath, President of the National Housewives League,

Says in an interview in the New York "Sun" of Oct. 25, 1915,

"Only two per cent. of the butter in the markets, is really of the highest grade. There is every reason why the creameries should be subject to the same stringent inspection laws as are the Oleomargarine plants."

The plant where

Columbus Oleomargarine

is made is thoroughly inspected both by State and Federal authorities. In fact there is a resident Federal inspector in the plant at all times.
